

## ARUBA 620 BRANCH OFFICE CONTROLLER

The Aruba 620 Branch Office Controller is a compact, cost-effective all-in-one networking solution. The 620 includes a firewall, wireless LAN controller, 9-port Ethernet switch with PoE+, IP router, site-to-site VPN edge device, file server and print server in an attractive desktop-mount enclosure. Aruba's centralized configuration and management model enables the 620 to be deployed, monitored and controlled without any local IT staff. Deployment options include zero-touch remote management or local configuration via a web interface.

The 620 is an integral component of Aruba's virtual enterprise network architecture, which uses central controllers in the data center to manage complex and processing-intensive management and security functions. Edge services are virtualized and implemented in cost-effective edge devices like the 620, which move user traffic to data center controllers through secure IP tunnels over a public or private transport network. The 620 provides local wireless services when used in conjunction with any Aruba access point (AP), or it can operate as a wired-only device. The 620 also includes print server and network-attached storage capabilities to enable local network printing and mass storage.

Running the ArubaOS operating system, the Aruba 620 comes standard with advanced authentication, encryption, wireless radio management and L2/L3 networking features. Optional ArubaOS software modules deliver additional functionality, including policy enforcement firewall, VPN server, remote access gateway and wireless intrusion prevention.

## COMPATIBLE USB MODEMS

The following is a partial list of tested and fully supported USB modems. Some modems not on this list may be fully supported with factory-default configuration, while others may require controller configuration in order to function. An updated list can be found at [http://www.arubanetworks.com/usb\\_devices](http://www.arubanetworks.com/usb_devices).

- Novatel U727
- Kyocera KPC680
- Compass 597
- USBConnect Quicksilver
- USBConnect Mercury

## COMPATIBLE USB PRINTERS

The following is a partial list of tested and fully supported USB printers. Some printers (such as the HP LaserJet 1000 series) require a firmware upload each time they are powered on. These printers are currently not supported. An updated list can be found at [http://www.arubanetworks.com/usb\\_devices](http://www.arubanetworks.com/usb_devices).

- HP Deskjet 6988 Printer
- HP LaserJet M1522nf MFP
- HP Officejet Pro L7590 All-in-One Printer, Fax, Scanner, Copier
- HP LaserJet P3005
- HP Color LaserJet CP3505
- Lexmark X7675 Professional
- Lexmark T640
- Lexmark C534dn

## COMPATIBLE USB STORAGE

The following is a partial list of tested and fully supported USB storage devices. An updated list can be found at [http://www.arubanetworks.com/usb\\_devices](http://www.arubanetworks.com/usb_devices).

- Seagate FreeAgent Pro hard drive
- Maxtor OneTouch 4 Plus hard drive
- My Passport Essential WDME3200 hard drive
- Iomega eGo Desktop hard drive
- Iomega Desktop Hard Drive hard drive
- Kingston DataTraveler 100 USB flash drive (2/4/8G)
- SanDisk Cruzer Micro USB flash drive (2/8G)
